POLAND FEASIBILITY – Step by step – User guide

Example:

A sponsor is seeking clinical sites with the highest number of patients diagnosed with **breast cancer** and treated with **carboplatinum**.

You can use either the basic or expert search.

Here is the basic search:

1. Select the appropriate ICD-10 codes, i.e. from C50 to C50.9.
Click the "Search" button to proceed.

Site Finder Tool

To view results for individual ICD-10 subcodes and sites, check the 'Expert Search' box

Expert search: ☐

Search with ICD-10 phrases:

The search engine is sensitive to terms appropriate for the International Classification of Diseases

Select by criteria:

Chapters ICD-10

C00–D48 -> Chapter II - Neoplasms

Codes ICD-10

If you want more individuals records, select records with pressed 'ctrl' button. If you want select record ranges, select first record, press 'shift' button and select last record from range.

C50 -> Malignant neoplasm of breast
C50.0 -> Nipple and areola
C50.1 -> Central portion of breast
C50.2 -> Upper-inner quadrant of breast
C50.3 -> Lower-inner quadrant of breast
C50.4 -> Upper-outer quadrant of breast
C50.5 -> Lower-outer quadrant of breast
C50.6 -> Axillary tail of breast
C50.8 -> Overlapping lesion of breast
C50.9 -> Breast, unspecified

- You will receive a list of medical centers with female patients diagnosed with the selected ICD-10 codes, along with: Procedures performed according to ICD-9, and Treatment applied based on EAN codes.

List of selected items: C50.0 (Malignant neoplasm of breast), C50.0 (Nipple and areola), C50.1 (Central portion of breast), C50.2 (Upper-inner quadrant of breast), C50.3 (Lower-inner quadrant of breast), C50.4 (Upper-outer quadrant of breast), C50.5 (Lower-outer quadrant of breast), C50.6 (Axillary tail of breast), C50.8 (Overlapping lesion of breast), C50.9 (Breast)

8. In expert search mode, you can search using keywords such as the common name of a medicinal product or the name of a medical procedure (ICD-9).

Example: In the main tool window, check the box "Expert Search", select the ICD-10 codes you're interested in (e.g. C50 and C50.9), then click "Search". You will receive separate results for C50 and C50.9.

Tool Limitations:

- The tool is based solely on data reported by healthcare providers to the National Health Fund (NFZ).
- The data is presented quarterly and covers the last **four full quarters**. Updates are made **every quarter**. When a new quarter is added, the data from the oldest quarter is **removed**.
- The tool provides an **indicative estimate** of the number of patients with a given diagnosis. For **precise data**, we recommend direct contact with the relevant healthcare provider.
- Regarding treatment data, EAN codes include **only cancer treatments**, i.e. those under diagnoses **C00–D48 (Neoplasms)**.

- Under codes **Z51.1** and **Z51.2**, which indicate chemotherapy, there are patients who **do not have a second diagnosis code** in the received data, e.g. C50. If a patient has both Z51.1 and C50, they will be shown under the C50 section.
- Therefore, data associated with codes **Z51.1** and **Z51.2** are **not representative** of all chemotherapy treatments conducted in Poland.
